CLERK  
United States Bankruptcy Court  
San Jose, California

Date of investment: 7/13/2007  
Amount invested: \$30,000.  
Kind of investment: Deed of Trust  
Amount of return: Fixed annual interest rate 10.50%  
Term: 36 months

My understanding is that I would receive 10.5% interest on \$30,000. for 36 months with an extra penalty for late payments. If I am not receiving interest then because I am on the deed I should therefore be receiving rent or at least be informed to what is happening. I am retired and need this money. I don't understand how the legal system allows Dan Shaw to step out of our agreement without any recourse!

Please help me get my retirement money back!  
Thank you!
